

Know your Aerosol

More coverage per can

Magnaflux lasts longer and gives you more inspections, due to our larger spray pattern and coverage-optimizing formulas

No odor!

Use less product

Magnaflux consumables are dense and rich in pigment, resulting in using less product to cover a test area with multiple layers

Honest upfront

Magnaflux aerosol labels include the following:

- Specifications & Certs
- Part Number
- Content
- Caution Statements
- Directions
- Contains
- GHS Information & Pictograms

Easy for audits

Consumable batch certifications, product data sheets, and safety data sheets may all be found on Magnaflux.com

Support is a call away

Questions, problems, or issues can be answered by our qualified support team who have 10+ years in the industry
